

Temporary Increase in Water Budget Request Form

Circle all that apply: New Landscape Major Repair

Name: _____ Date: _____

Name on account if different: _____ Phone: _____

Address: _____ Billing Address: _____

By signing below, the applicant certifies the included information and acknowledges that:

- I am applying for a temporary increase in my Water Budget this year because the above address is undergoing either **significant new landscape installation** or **major landscape repairs**. I understand by receiving approval for a temporary increase in my Water Budget I will also receive a Daytime Watering Permit.
- The temporary increase in the water budget upon review and approval by Centennial is **7,000 gallons**. This amount is approximately equivalent to the addition of 1.00" of irrigation per week for three weeks applied to the irrigated area of an average sized lot. During April-May and September-October the normal amount of irrigation ranges from 0.50"/week to 1.00"/week. This is an adequate temporary increase on top of the normal water budget during these months for the establishment of new landscaping.
- The temporary increase and daytime watering permit is **available only in April/May or September/October with the exception of Community Sports Fields**. New landscape installation is discouraged in June-August due to hot dry weather and the excess water needed for new installations. Due to high use, community sports fields may require additional major repair during the summer to keep the field in safe playing condition. Only one temporary increase in the water budget is allowed per year with the exception of Community Sports Fields.
- Daytime Watering Permits may be picked up at the District Office Building within 2 days of submitting this form otherwise permit will be mailed by staff.
- The information contained in this form is subject to audit. Should an audit be necessary, applicant agrees to provide acceptable documentation of the installation of new landscaping or major repairs in the form of copies of receipts or the granting of access to the property for inspection by District employees. If any of the information supplied on this application by the applicant is found to be false, the fees and charges will be adjusted retroactively to the date of this application and appropriate fees and charges added to the next utility services bill for the address.

Applicant understands that water usage in excess of the assigned Water Budget, including the temporary increase, will result in significantly higher costs as an incentive to use water wisely. Applicant must adhere to current watering restrictions. If any information provided is not valid or water is used for another purpose, customer will be subject to violation charges. See chart below from our Rules and Regulations.

Charges for violation of Mandatory Outdoor Water Use Restrictions:

Compliance with the Mandatory Outdoor Water Use Restrictions will be determined by Centennial and the following actions and charges for violation thereof shall apply:

The first annual offense will result in a recorded violation documented by a door hanger followed by a letter.

The second offense would result in a recorded violation documented by letter and assessing a fee to their water bill.

All following offense would result in a recorded violation documented by certified letter and assessing a fee to their water bill as stated in the table below.

All violations would allow for a reasonable grace period prior to the next violation being recorded allowing for mail delivery and system corrections. Failure to pay charges will result in suspension of water service.

Meter type/size	OFFENSE				
	2nd	3rd	4th	5th	Subsequent
Residential	\$50	\$100	\$250	\$500	Water Shut off
1" or less	\$100	\$200	\$500	\$1,000	Water Shut off
